

MonWHO 2009

World Health Organization Simulation

March 6th to 8th, 2009
at the Hotel Gouverneur, downtown Montréal

The *World Health Organization Simulation (MonWHO)* invites all students concerned with global health issues. This unique conference gives you the opportunity to act as political and social players in the international community.

Goals of *MonWHO*:

- Provide a means for students to gain awareness of the proactive role they can have in international health policy;
- Acquaint students with the role of the WHO in global health issues;
- Develop interprofessional relations between future health care professionals and students whose fields of expertise play a role in health policy.
